
POSITION: General Maintainer

With almost 50 years' experience throughout North America, Angus Consulting Management Limited ("ACML") is one of Canada's most trusted facility operations management companies.

We have extensive knowledge managing critical environments including data centres, healthcare facilities, commercial facilities, central utility plants and Public Private Partnership projects. We're looking for **General Maintainers** to join our team at the **Vancouver International Airport**.

Duties and Responsibilities

- Provide day-to-day repair, adjustment and replacement of millwork in the facility;
- Maintenance of lighting fixtures in the facility;
- Repair or replace all types of flooring – this includes tiles, hardwood and/or engineered, carpet, vinyl, laminate, etc.;
- Touch-up and patch painting, etc.;
- Repair washroom fixtures (sinks, toilets, urinals, locks and hinges, flush-o-meters, dispensers (soap, paper, etc.), drinking fountains);
- HVAC maintenance such as replacing filters, cleaning fan coil units, etc.

Qualifications

- Our ideal candidates will be dynamic, resourceful, skillful & handy;
- Have past experience in repair or maintenance tasks;
- Must have excellent customer service skills;
- Ability to coordinate and communicate effectively (written and oral);
- A valid driver's license in good standing.

Hours of Work

- Shifts rotation Monthly
 - Morning: 08:00 to 16:30
 - Afternoon: 16:00 to 24:30
 - Night: 24:00 to 08:30

Compensation Package and Perks

- We offer a great compensation package including:
- Health/medical/dental benefits
- Life insurance
- Retirement pension plan
- Tuition reimbursement
- Employee discount program
- And so much more!
